25X1

REF: GLOSSARY OF TERMS, MISSION CORRELATION DATA FOR [REDACTED] MISSIONS

25X1

(A) LINE 29 - ACTUAL TARGETS
DISTANCE ON FILM TO CENTER OF TARGET FROM "Z" CORNER.
(CROSS-TRACK AND IN-TRACK).

(B) LOCATION OF "Z" CORNER ON FIGURE 1

1. AN ANALYSIS OF SEVERAL THOUSAND TARGETS ON A TARGET VALIDATION STUDY INDICATES THAT THE POSITION OF THE "Z" CORNER IS NOT ALONG THE TIME-TRACK EDGE AS PER INSTRUCTION. MOST ALL THE TARGETS FALL INTO BETTER PERSPECTIVE WITH THEIR ACTUAL LOCATION ON THE FILM BY PLACING THE "Z" CORNER ALONG THE NON-TIME TRACK EDGE.

2. A CHECK SHOWS THAT THE SAME INSTRUCTIONS WERE USED FOR THE PREVIOUS [REDACTED] CAMERA SYSTEM. PLEASE CONFIRM OR REJECT THIS SUPPOSITION AS THE CORRECT PLACEMENT OF THE "Z" CORNER IS EXTREMELY IMPORTANT TO THE TARGET VALIDATION STUDY.
